ProxyBlocker Environment Requirements

Client Workstation Requirements

Administrator

Minimum system requirements for the administrator include the following:

- Windows 2000 or later operating system (not compatible with Windows server 2003) running Internet Explorer (IE) 6.0 or Firefox 2.0, or Macintosh OS X Version 10.5 running Safari 2.0 or Firefox 2.0

- JavaScript enabled

- Java Virtual Machine

- Java Plug-in (use the version specified for the ProxyBlocker software version)

End User, if Authentication is used on the System

If using authentication, note the following system requirements for the end user:

- Windows 2000 or later operating system (not compatible with Windows server 2003) running Internet Explorer (IE) 6.0 or Firefox 2.0, or Macintosh OS X Version 10.5 running Safari 2.0 or Firefox 2.0

- JavaScript enabled

- Anti-popup software, if installed, must be disabled

Network Requirements

- High-speed connection from the ProxyBlocker server to the client workstations

- HTTPS connection to M86's software update server

- Internet connectivity for downloading Java virtual machine, if not already installed
