Mobile Security Client Version 2.2.1

Release Notes

April 2015

Trustwave is pleased to announce the availability of the Mobile Security Client (MSC) version 2.2.1.

This maintenance update adds support for Mac OS X Mavericks/Safari 7, Mac OS X/Safari 8, and Mac OS X/Mozilla Firefox versions 34 and later.

This MSC release is for use with Trustwave Secure Web Gateway deployments only - it is not for use with Trustwave Web Filter.

Notes:

- This update is for Secure Web Gateway version 11.5.

- This update is for use with Trustwave Secure Web Gateway deployments only - it is not for use with Trustwave Web Filter.

How to Install this Update on Secure Web Gateway

The following procedure describes the installation in Secure Web Gateway deployments.

The procedure also includes a small change in configuration settings that initiates the adoption of the update.

The change is then reversed at the end of the procedure.

1. Download the Update **fup** file from the link to your local desktop.
2. In the Management Console, navigate to **Administration > Updates and Upgrades > Management**.
3. Click **Import Updates** at the lower right of the screen.
4. In the Import Local Updates window that opens, browse to the Update **fup** file on your desktop. Select it and click **Import** in the window.

    The Update will appear in the Available Updates tab in the Updates and Upgrades Management window. If it does not appear right away, click the **Refresh** button.

5. Select the Update from the list and click **Import Update**.

    After the Update is installed, the Installed Updates tab will open.

6. Navigate to **Administration | Cloud | Configuration**.
7. In the Client Configuration tab:

    a. If the **Enable Client Uninstall Warning Text** check box is selected, clear it.
    b. If the **Enable Client Uninstall Warning Text** check box is not selected, select it.

8. Click **Commit Changes** in the toolbar.
9. In the Client Configuration tab, reverse the change you made in step 7:
    a. If the **Enable Client Uninstall Warning Text** check box is selected, clear it.
    b. If the **Enable Client Uninstall Warning Text** check box is not selected, select it.
10. Click **Commit Changes** in the toolbar.

Documentation

The *Mobile Security Client Administrator Guide* is also available for MSC version 2.2.
